

Renomark

RENOVATION AWARDS

ALL CANADIAN RENOVATIONS

Category 3: Bathroom

- Our challenges were rerouting all the plumbing and keeping the style of the home intact.
- We had to reframe the floor joist to accommodate the plumbing.
- An old claw foot tub was cleaned and put back into service.
- Special fixtures were purchased in keeping with the age of the home.
- Granite was salvaged from a granite outlet. The granite had a blue stain on the edge which could not be removed and had been thrown out. A sink was cut in and the backsplash was hand sanded and the front edge painted blue.

- The doors were replaced with 15 litre sandblasted glass doors. A dummy door was kept in to allow natural light into the hall.
