RENOVATION AWARDS

HANDS-ON-DESIGN

Category 2: Kitchen

- Both clients were both accomplished cooks and wanted a gas range as the focal point of their new kitchen/dining area.
- Ergonomics were very important to them and they wanted the kitchen appliances to be in close proximity.
- Their house was poorly insulated and they wanted to realize the best insulation standards possible in this area.
- The kitchen had an existing double casement window which was changed to accommodate a double in-swing door system.
- The compact kitchen area was finished with a crown molding, recessed halogen lightings, granite countertop, tile backsplash and painted cabinets.
- The hardwood floor was refinished and a stainless steel range hood completed the overall appearance.

VALUE OF PROJECT:
\$70,000.00
