HARWOOD DESIGN BUILDERS

Category 1: Addition

- The home's footprint was increased by 176 square feet and a new 60 square foot deck was added.
- The airy, stylish interior brings the outdoors in with smooth honey toned cedar on the beautiful angled ceiling and rich stone color ceramic tile for the flooring.
- The entire addition was built for comfort with cozy heated floors in a finish to withstand the high traffic.
- The new was integrated with the old through the creation of a cathedral style entry taking on the interesting architectural angles of the ceiling as well as the room itself.
- The sturdy, functional deck is the perfect outdoor meeting place, located in a right angle, hugging the new sunroom and the existing kitchen.
