RENOVATION AWARDS

PARKHILL HOMES

Category 2: Kitchen

- The wall between the kitchen and dining room was removed and a new beam flushed into the ceiling, creating a more modern, open, spacious, brighter area.
- A newly designed kitchen included a corner pantry to provide plenty of storage, an abundance of upper and lower cupboards, many pot drawers for easy access, a large island with a rounded portion for more casual eating and an ample surface for prep work, a drybar with obscure glass doors for display, and slide-in stove with an over the range microwave.
- To complete the renovation, built-in matching lower cupboards in the dining alcove were added with matching granite countertops and the hardwood floors were matched to incorporate a very cohesive ambiance in the new kitchen/dining room.
- A round drywall bulk head with pot lights above the rounded section of the island provided some added detailing
